Responsibility – Respect – Integrity – Compassion - Courage

April 28, 2016

Good Morning Grade 8 Parents,

Warburg School along with one other school in BGRS has been randomly selected by Alberta Education to participate in a project called the Pan-Canadian Assessment Program (PCAP). This testing is being completed to find out what our students at this age/grade level in Canada know about reading, mathematics, and science.

As this is not an optional program, we have scheduled Thursday May 12, 2016 in the morning as the day students will be completing the testing. Students will be provided reading time followed by the testing which will take up to 90 minutes.

It is important that students give their best effort to obtain the best results for data collected in this project. The results of all the students who are writing this test will be used to produce a picture of the achievement of provincial/territorial students and of Canadian students.

I hope this information will provide some insight of why and what the testing entails.

Thank you for your support,

Mr. P. Bohnet
Warburg School Principal
